Application Number: 10/042,087

Filing Date: 01/10/2002

First Name Inventor: Wen-Chiang Huang

Art Unit: 1754

Examiner: Nguyen, Ngoc Yen M

Title of invention: **Method of producing quantum-dot powder and film via templating by a 2-d ordered array of air bubbles in a polymer**

Commissioner For Patents and Trademarks

P.O. Box 1450

Alexandria, Virginia 22313-1450

Madam:

In our earlier response to the Office Action Summary dated 03/26/2004, we selected group 1 (claims 1-22) to be examined first without traverse.

Herein we further choose GaAs as the single ultimate disclosed species for production on the merits to which the claim should be restricted if no generic claim is allowed.

We also modified the claims as listed in next pages

Thanks you

Regards,

Wen-Chiang Huang
